Re Low Power Television Auction 81  
MX Group 042

Dear Ms. Dortch

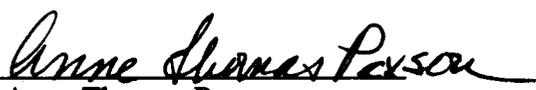

Core Group International, Inc. ("Core Group"), an applicant for a new low power television station in Ocean City, Maryland (BNPTTL-20000831BIM), hereby requests that MX group 042, listed in Attachment A to DA 05-506, be deleted from the current auction scheduled to start on September 14, 2005.

Core Group amended its application on March 5, 2003, and that amendment is noted in the Commission's database. Core Group's amendment reduced its power, reoriented its antenna, and confirmed that it was willing to accept interference. Accordingly, Core Group is only MX with Mount Ocean Media, LLC, the applicant for a new low power television station in Salisbury, Maryland (BNPTTL-20000817ADA). Since Core Group is not MX to the other applicants listed, MX group 042 contains a daisy-chained application. Should any of the other applications except Mount Ocean Media be granted, the Core Group application can also be granted.

In its Public Notice released February 28, 2005, the Commission indicated in footnote 1 on page 1 that daisy-chained MX groups would not proceed to auction at this time.

Respectfully submitted,

CORE GROUP INTERNATIONAL, INC.
